Smart Utilities & AI Intelligence

Powered by Claude AI

BlockSense monitors every utility in your society — water, power, gas, sewage, waste, garbage — in real time, with AI that predicts problems before they happen.

Ø=ÜS

Water

- Tank levels
- Daily KL
- Tanker orders

&¡

Power

- kWh usage
- Peak load
- Outage alerts

Ø=Ý%

Gas

- Pressure
- Daily m³
- Leak detection

Ø<ß

Sewage

- Flow rate
- Block alerts
- Maintenance

&{þ

Waste

- Dry/wet split
- Block leaderboard
- Logs

Ø=Þ›

Garbage

- Collection days
- Missed pickups
- Alerts

AI-Powered Intelligence

Backed by Claude — Anthropic's advanced AI

Ø>Ý Resident AI Chat

Every resident gets an AI assistant that answers questions in plain English. Ask about your dues, water level, alerts, or anything — get instant, accurate answers pulled from live society data.

- "What is my outstanding balance?"!' ¹4,200 for March due in
- "Is water available?"!' Tank A: 82%, Tank B: 61% — sufficie
- "Any alerts I should know?"!' 2 active: power surge warning

Ø=ÜÊ AI Monthly Reports

Generate a full PDF monthly report with an AI-written executive narrative. Covers utility consumption, payment health, open requests, alerts, and forward-looking recommendations — ready in 15 seconds.

- Executive summary written in plain English by Claude AI.
- KPI table: water, power, payments, alerts, service requests.
- Automatically emailed to RWA committee on demand.

Ø=Ý. Predictive Tanker Orders

BlockSense AI analyses 30 days of water consumption data and tank levels to predict when tankers need to be ordered — before you run out. Alerts are sent proactively, not reactively.

- Scans all blocks nightly at 12:30 AM automatically.
- Factors in usage rate, current level, last delivery date.
- Sends tanker order alert 48 hours before predicted shortage.

&¡ Anomaly Detection

Hourly scans detect abnormal utility readings — sudden spikes in power, pressure drops in gas, unusually high water usage — and raise alerts instantly so issues are fixed before they escalate.

- Runs every hour across all society blocks.
- Compares readings against rolling 7-day baseline.
- Raises critical or warning alert with specific details.

Guard Post

Physical security made digital

Ø=ÜË

Today's Log

Real-time list of all visitors with check-in/out times and pass codes.

Ø=Þ¶

Walk-in Entry

Instantly log unannounced visitors with name, phone, and destination flat.

Ø=Ý"

Pass Code Scan

Residents share a 6-digit code; guard verifies in one tap. No calls needed.

Ø=Üø

Photo Evidence

Capture visitor photo directly from the guard's device camera.

Why BlockSense AI?

The smarter choice for modern societies

Life Before vs After BlockSense

Manual dues collection via cash or WhatsApp reminders	Automated dues tracking with real-time dashboard
Minutes, notices, and records lost in chat threads	Digital minutes, notices, and records in one place
Guards work from a printed list, no real-time visibility	Guards log visitors on mobile, admin sees live updates
Complaints scattered across calls, texts, and notebooks	Complaints tracked with status updates and history
Accounts maintained in Excel or paper registers	Accounts auto-calculated and always up to date
Members need to call or visit the office for updates	Members get instant updates on their phones
Committee changes require rewriting all records	Role changes take effect instantly for all members
No way to know who paid what without asking everyone	Dashboard shows payment status for every member

Trusted. Secure. Always On.

Ø=Ý

Bank-grade Security

All data encrypted at rest and in transit via HTTPS.

&¡

Real-time Sync

Convex database ensures all users see live data.

Ø=Üñ

Works Offline

PWA caches key pages. Works with poor network.

Ø<ß

Web + Mobile

Full-featured on both browser and mobile.

& þ

Zero Maintenance

Cloud-hosted. No servers to manage or update.

What Our Users Say

"We eliminated 3 WhatsApp groups, 2 Excel sheets, and a paper register. BlockSense replaced all of them."

— Ramesh K., RWA Chairman

"I can pay dues, check water levels, and pre-register my guests — all from my phone. It just works."

— Pri
